## Education

Expected Graduation: 2024

**BSc (hons) in Information Technology**  
specialize in Software Engineer  
SLIIT

2018

**G.C.E. ADVANCE LEVEL**  
Passed

2015

**G.C.E. ORDINARY LEVEL**  
Passed

## Expertise

### Languages

- HTML
- JavaScript
- Java
- Python

# Iresha Prabodhani

## Software Engineer

I am a dedicated Software Engineer with a specialization in web development. My passion for this field is fueled by the thrill of overcoming challenges and achieving my goals. I am committed to continuous learning and adapting to new technologies in this dynamic industry. I believe in striving for greatness and never settling for less. My determination and passion make me a valuable addition to any team. I am excited to contribute positively and grow in this ever-evolving tech landscape.

## Experience

### April 2023 - Present

Enfection (pvt) Ltd

#### Junior Executive - Web Development

Progressed to a Junior Executive role, taking on more responsibilities in web development.

- WordPress Proficiency:** Built on my internship experience to specialize in WordPress, acquiring in-depth knowledge of custom theme development and customization.
- Hands-On Theme Development :** Actively engaged in crafting custom WordPress themes, honing my skills in responsive design to ensure a seamless user experience.
- Leadership Role:** Stepped into a leadership role, guiding and mentoring interns and new hires, fostering a collaborative and learning-oriented environment.
- Continuous Learning:** Continued to enhance my technical skills and adapt to new technologies and trends in the web development industry.

### January 2023 - April 2023

Enfection (pvt) Ltd

#### Intern Web Developer

Continued my professional growth in the tech industry as an intern, focusing on web development.

- WordPress Development:** Gained valuable experience in WordPress, specializing in custom theme development to create unique and user-friendly websites.
- Team Collaboration:** Worked closely with a diverse team of developers, fostering a collaborative environment that encouraged knowledge sharing and mutual growth.
- Project Contribution:** Contributed to various stages of the web development projects, applying my skills to practical tasks.
- Skill Enhancement:** Utilized this opportunity to enhance my technical skills and understanding of WordPress, preparing me for future challenges in the tech industry.

### August 2022 - November 2022

CodeTechLK

#### Intern - Software Engineer

Embarked on my professional journey in the tech industry as an intern, gaining hands-on experience in software engineering.

- MERN Stack Development:** Acquired a fundamental understanding of MERN stack (MongoDB, Express.js, React, Node.js), which forms the backbone of modern web development.
- Practical Application:** Applied my theoretical knowledge to practical tasks, contributing to various stages of web development projects.
- Collaborative Environment:** Worked in a team-oriented setting, collaborating with other developers and learning from their experiences.
- Continuous Learning:** Embraced the opportunity to learn and grow, enhancing my technical skills and understanding of the software development lifecycle.

## Frameworks and Libraries

- Bootstrap
- Tailwind CSS
- Android
- Flutter
- CSS
- React Js
- Node JS
- Jquery
- WordPress

## Databases

- MySQL
- SQL server
- Firebase
- MongoDB

## IDEs and Design Tools

- IntelliJ
- Visual Studio Code
- Android Studio

## Professional Approach

- Collaborative Team Player
- Effective Communicator
- Adaptability and Flexibility
- Results-Driven Mindset
- Proactive Learning and Development

## Language

English  
SInhala

## Projects

<https://factseeker.lk/staging-enf/>

1. **Custom WordPress Theme:** Demonstrated technical proficiency by creating a custom theme on WordPress.
2. **Figma to Responsive Website:** Converted Figma designs into a fully functional, responsive website, showcasing my design principles and attention to detail.
3. **Responsive Design:** Ensured a seamless user experience across various devices and screen sizes by implementing responsive design.
4. **End-to-End Development:** Managed the project from initial design conversion to final deployment, highlighting my project management skills.

<https://buyrocell.com/>

1. **Front-End Development:** Worked on the front-end development using PHP and Bootstrap, demonstrating technical proficiency and attention to detail.
2. **Adobe XD to Responsive Design:** Converted Adobe XD designs into a fully functional, responsive website, showcasing design principles and responsiveness.
3. **Team Collaboration:** Collaborated with a diverse team of developers, fostering a productive work environment that encouraged knowledge sharing and mutual growth.
4. **Continuous Learning:** Utilized this opportunity to enhance technical skills and understanding of front-end development, preparing for future challenges in the tech industry.

<https://github.com/CodeTechlk/beefworld>

1. **Front-End Development:** Worked on the front-end development using React JS ,MUI and CSS, demonstrating technical proficiency and attention to detail.
2. **Back-End Development:** Worked on the back-end development using Node JS and Firebase demonstrating technical proficiency and attention to detail.
3. **Team Collaboration:** Collaborated with a diverse team of developers, fostering a productive work environment that encouraged knowledge sharing and mutual growth.
4. **Continuous Learning:** Utilized this opportunity to enhance technical skills and understanding of front-end development, preparing for future challenges in the tech industry.

## Seeking MERN Stack Development Role

I am actively seeking a position in MERN stack web development, an area that I am not only experienced in, but also deeply passionate about. My experience with JavaScript, MongoDB, Express.js, React, and Node.js, coupled with my eagerness to take on new challenges, makes me excited about the opportunities in this field. I am driven by my passion for coding and problem-solving, and I am always ready to learn and adapt in this ever-evolving industry. I believe that my dedication and enthusiasm will allow me to make significant contributions to any team. I am looking forward to bringing my unique perspective and strong technical skills to a new role in MERN stack web development.
